		6 out of 38 did not form clear rings and could not be aged						
		32 out of 38 could be aged						
		23 out of 32 aged correctly or within less than one year of actual age.						
		8 out of 32 aged to one year of actual age						
		1 out of 32 aged to two years of actual age						
		Thus of the 32 that could be aged, all were aged within two years of actual age.
