ECM stability diagnostic tests - dryland

Test	Test Statistic	p-Value	Conclusion
Breusch-Godfrey	0.0086	0.92	No serial correlation up to order 1
Breusch-Pagan	19.17	0.51	Fail to reject the null hypothesis of homoscedasticity
Ljung-Box	0.0207	0.89	No serial correlation

Shapiro-Wilk	0.9304	0.01	Reject the null hypothesis of normality of residuals at 5%
--------------	--------	------	--

CUSUM and CUSUMQ plots – dryland
