

One day I have told myself I am no longer
going to drink and smoke. I will live my
life like others. because I have seen that
what I am doing now is going to destroy
my future. I was not taking my school
serious. Those weed and cigarettes were
started to damage my mind, whereby all
people were saying I am mentally disturbed.
I have experience the how life it is. Life
has changed in a way that I wasn't aware
that things would be. My parents were
started to not taking care of me. It
was only few times to become a street
kid.

Structure

When I have started to see that my parents
are no longer taking care of me and I am
going to lose my future because of things
that are not even important to me. I
have started to stop smoking, living like
others and becoming a good person. I started
to respect people because I have seen that
life is going to be tough. I have seen life
that if you are a person you have to believe
in yourself and be who you are, and
do not friends to discourage you because
your life will be destroyed.

we waited for corona virus to end, but it did not end

CORONA VIRUS. It is a disease that was found ⁱⁿ China and ~~discovered~~ discovered in 2019. It is sort of some small bacteria that is affecting you through breathing and touching. The president informed people that they must wear some mask to ~~prevent~~ ^{There} prevent the corona virus. we were always indoors. They ~~was~~ ^{There} was a poverty in the economy because people lost their jobs while the prices of the goods and services was high so that they can have some income.

29
it is disease that stopped many things, e.g. schools, companies. Most of people were not going to work because of it and some lost their jobs. Children were not going to schools and also the shops were closed. The economy was going down because ~~they~~ ^{there was} there was no income that the economy was getting. The places where many people like to attend people were counted. Only few people were allowed to go to the funerals and that was so people only. The president informed people that they must stay indoors. People were not allowed go to one province to another. Billions of people died.

This issue was affecting our future because the schools were closed. we were very stressed because we did not write June examinations and we did not even attend. we were even losing hope on our future because we are attending schools that are

Corona Virus 2019 (Covid 19)

The Corona Virus 2019 was discovered ^{red} in the year of 2019. This virus was then given a shorter name (Covid 19). This Covid 19, it is from China. That is where it was originally produced and started to go. China did not inform other countries as it was at an early stage to be producing news about a virus which they don't have all the information about it. But they informed people that it is caused by cats as the virus started to be well known.

As the virus was well known, it started to affect the basic education of all different countries which were affected by this virus.

Because all the schools had to be closed as we were busy fighting against this virus. Learners had to move from varities Universities and all different types of schools back to home for their own safety. At this time, learners had to study online.

This virus also affected the South African economy in a very bad way. The economy collapsed due to the national lockdown that was taking place in South Africa. The economy collapsed because bottle stores and taverns, shops for groceries and other services were closed. People had to stop going to their works as their work places were closed. All this led to an collapsing of our economy.

As the virus were spreading, they were safety protocols that we as people had to take. The president addressed an a national lockdown as one of the safety protocols. Not only the lockdown but also washing of hands regularly with a soap, sanitizing of hands at all times, wearing of masks at all times, always scanning of temperature to see if one don't have any symptom and also practicing a social distance of about 1.5 metres.

Was the first time on the 05 of September 2020, I was sleeping alone in my bedroom. In the During the midnight I ~~woke~~ ^{wake} up. I went off to the kitchen room, took bottle of water in a Fridge. I went back to my bedroom while I was busy drinking my water. I switched on the light then gone on my bed to sleep. After 5 minutes my mother called my name, "Potegoll Potegoll Sitoh off the light my Son" I woke up and do as what she say. After so far something appears on my window looking like a dead body of an a person, I didn't shout I slept.

On my window I see a dead body of an a person whom was buried long long ago, and I realise that what I see is what my neighbour always talking about when I'm with her. This dead body always appears during the midnight on the Wednesdays only, I wonder why and what does it looking for. This dead body only appears on my window and seems it's sent by someone who wants to scare me.

the day after a month in the holidays when my parents are about to go out, My parents went to Pretoria. The day the dead body in the Midnight came and drop a dead cat. In the morning I woke up took my teeth brash and Colgate went out back of the house near the old toilets, while I was washing my teeth I smelled something dead. I rushed where the smell came from, OMG!! I found

The covid 19 pandemic.

informal language

The year 2020 had been a pain in an ass. Having to face the issue of the pandemic that held the whole world changing. The Covid-19 pandemic focus on the following: what covid-19 mean, where it originated, Symptoms, the safety measures implemented by the government to minimize the spread of Covid-19. and how it can be treated.

Covid-19 is a pandemic or a virus that attacks the immune system. It resemble the symptoms and characteristics of Flu. It first originated in Wuhan in China in 2019 and was discovered that it comes from sea food and people who visited the restaurant in Wuhan had contracted the virus and spread it.

repetition

Covid-19 pandemic has more or less similar symptoms of Flu. A person with covid-19 might have a sore throat, fever, cough, muscle tones and difficulty in breathing. When a person with the virus sneeze in his/her palm and eventually touch a surface with the droplets and another person touches the surface and touch his/her face, nose, ears the person will be affected.
