Reminder of Take Home Exam NSS tonight at 6pm

Posted on: Monday, 21 November 2022 06:36:28 o'clock SAST

Good morning,

I hope that you had a good weekend and have been preparing for your upcoming Take Home Exam later this week.

Just a gentle reminder that we have our NSS for the Take Home Exam tonight at 6pm.

Link can be found under More Resources- Collabs tab. The collab will be recorded and the recording link provided via email and announcement. Therefore, if you are experiencing load shedding you will not miss the NSS entirely.

Hope to 'see you all' online this evening for our NSS.

Take care,

Take Home Exam NSS reminder

Posted on: Friday, 18 November 2022 07:27:40 o'clock SAST

Good morning,

Take Home Exam preparation

Posted on: Monday, 7 November 2022 07:19:32 o'clock SAST

Good morning,

I hope that you had a good weekend 😊

November and exam season is here.

[We are officially in week 16 of the semester this week.](#) At this stage the focus moves towards preparation for the Take Home Exam. Please access the revision folder created on **LMS** Review the past paper so that you have an idea of what to expect for the upcoming THE. Please note that LU1-5 will be covered in the 2022 THE.

I would encourage you to review LU1-5 and all the learning outcomes within each of the learning units. My slides on **LMS** will guide you and refer you to the relevant content linked to the textbook. In addition, read through your assignments for the module. These steps will help familiarise you with content and potential areas of focus in the THE.

Please remember we have our THE NSS on the 21 November at 6pm.

Unique link can be found under the Collabs tab on **LMS**

Please note that I have attached details of an academic writing workshop being held by our head of humanities this week. I would encourage you to attend, if possible.

on and
Friday: where they should be

Approaching planning for the THE- Revision folder

Posted on: Friday, 28 October 2022 07:51:05 o'clock SAST

Good morning,

TGIF 😊 We made it to the weekend!

As assignment season comes to an end, we need to start our planning for the Take Home Exam.

I have created a folder under 'More Resources' on **LMS** (just under the Ice Task folder) that is titled 'Revision'. I have uploaded a past 2021 THE into this folder. Please start having a look at the type of question formats, areas of focus and wording of the questions contained within this paper. Familiarising yourself with past paper 'question approaches' is very useful for orientating yourselves with what to expect for your upcoming exam for this module.

Reminder that we have our Take Home Exam NSS on the 21 November at 6pm, unique link available on **LMS** - Collabs Tab.

Chat soon. Have a good weekend.

Take care,

Week 9 progress and collab tomorrow evening

Posted on: Monday, 19 September 2022 09:34:49 o'clock SAST

Good morning,

Monday has arrived 😊. I hope that you were able to dedicate some of your time this weekend to your studies.

Just a gentle reminder that we have our next collab tomorrow evening at 6:45pm. The link and details can be found on **LMS** - COLLABS Tab. We will be focusing on ice tasks tomorrow evening and having a quick look at the approach to assignment 2.

Please do not worry if you are affected by load shedding as the session will be recorded and link made available, as always.

We are officially in week 9 of the semester this week. You should be moving on to LU4 at this stage and have wrapped up Assignment 1, with a view to starting your planning for assignment 2. This is a holistic, suggested semester progress guideline that will keep you in line with Learning Unit content coverage for both Assignment 1, 2 and the Take Home Exam.

Hope to see you at our collab tomorrow evening.

Take care,

Collab early next week- ice tasks and approach to assg 2

Posted on: Friday, 16 September 2022 07:46:01 o'clock SAST

Good morning,

The weekend is here 😊.

Just a gentle reminder that we have our next regular collab early next week. As always, please consult the COLLABS tab on LMS for the link and details. I would like to briefly review ice tasks, as well as chat about the strategy for assignment 2 during our collab.

I have been marking ice tasks this past week and I must commend many of you on the level of your work submitted! Well done!

However, many students have attempted very few ice tasks which is concerning at this stage of week 8 in the semester.

Please remember to follow all the instructions and in text referencing requirements of each ice task, in order to receive the credit for each task. If instructions and details are not adhered to, students will unfortunately not be awarded the credit for the ice task.

Please remember that the Ice Task Deadline for this module is the 7 October 2022.

All x4 compulsory ice tasks must be submitted before midnight on this specific date. Each task that is successfully completed according to the given criteria within the individual task, will qualify you for 2.5%, to a total of 10% (for the x4 tasks) which adds up to 10% towards your overall module mark. You will note that if you are successful with your ice task submission you will receive a credit in the form of a '1' and if you are not successful with the ice tasks submission you will be awarded a '0'. Ice task results can be reviewed on LMS.

Have a good weekend.

Take care,

ICE Task Guidelines and due dates Semester 2- 2022

Students are required to submit a minimum of x4 Ice Tasks per module for the semester. Each task counts for 2.5% towards a total credit of 10% towards the module mark.

Please ensure that you complete a minimum of x4 Ice tasks for this module. I would recommend attempting all tasks made available on LMS as this will aide you with exam preparation overall.

All Ice tasks are due by no later than the 7 October 2022. No tasks will be accepted after this date for this module. There is therefore one overall deadline date for the x4 Ice Tasks.

Journal Instructions

Instructions

[Alignments](#)

Ice Task 1 - Worksheet LU1-theme 1 and theme 2

Please complete the answers to x 2 Worksheets for LU1, theme 1 and theme 2.

Submit your answers via this journal.

You can either answer on the actual word document provided or create your own document. Ensure that all the answers are completed in full for LU1, theme 1 and 2 (x2 worksheets).

The worksheets concerned for LU1, theme 1 and 2 are attached within the links below.

Please note that in text referencing is applicable for all questions, where the question structure allows for this logically.

ICE Task 2 and 3 is using Mind Maps

ICE Task 2

Create a mind map/flow chart on an A4 page containing an overview or 'how to guide' as to how you will approach assignment 1 for [REDACTED]

This 'how to guide' or assignment plan should guide you with the requirements you will need to successfully attempt the assignment.

Ensure the following:

- The mind map must be created using software such as Powerpoint or any other relevant software. If not, you may very neatly draw and create the mind-map using colour and then scan and upload it to the journal link provided for this Ice task.
- Brief insight into how you will approach the x3 questions within the assignment.
- References of all sources you will access must be included in the mind map. Details of Learning Units (LU's) , Learning Outcomes (LO's) from the [REDACTED] Learn Manual Outline must also be included, as well as relevant textbook content accessed.
- A full reference list (according to [REDACTED] Ref Guide) must be attached

Journal Instructions ^

Instructions

[Alignments](#)

Ice Task 3

This task refers to Cultural Variations in Non-verbal behaviour, LU2, theme 2.

Develop a mind map to illustrate the different cultural variations in Non-verbal Communication. You are required to briefly explain each variations and give examples of the different cultures or regions as applicable to each of the nonverbal variations.

Construct the mind map or flow chart, using a one-page A4 landscape orientated document. You may use app's such as Canva or software such as Pressi/PowerPoint to construct the map. If you do not have access to this software, you may professionally construct the mind map/flowchart by hand, using colour.

Insert in text referencing within the mind map/flowchart to ensure credibility of your content. You are required to use your textbook and one additional source to aid you with this task.

Please attach a separate page containing your reference list for this task.

Journal Instructions ^

Instructions

[Alignments](#)

Ice Task 4 - LU3

Please complete the answers to the given worksheet as relates to the content of LU3- Popular Culture.
Submit your answers via this journal.

You can either answer on the actual word document provided or create your own document. Ensure that all the answers are completed in full and contain in text referencing.

The worksheet concerned for LU3 can be found when accessing the below link.

Please note that in text referencing is applicable for all questions, where the question structure allows for this logically.

Credit for this task will only be awarded if all of the abovementioned criteria are met.

[Ice Task 4- LU 3 Worksheet.docx](#)

ICE Task 5

Create a mind map/flow chart on an A4 page containing an overview or 'how to guide' as to how you will approach assignment 2 for [REDACTED]

This 'how to guide' or assignment plan should guide you with the requirements you will need to successfully attempt the assignment.

Ensure the following:

- The mind map must be created using software such as Powerpoint or any other relevant software. If not, you may very neatly draw and create the mind-map using colour and then scan and upload it to the journal link provided for this Ice task.
- Brief insight into how you will approach the given essay overall for question 1.
- References of all sources you will access must be included in the mind map. Details of Learning Units (LU's) , Learning Outcomes (LO's) from the [REDACTED] Learn Manual Outline must also be included, as well as relevant textbook content accessed.
- A full reference list (according to [REDACTED] Ref Guide) must be attached

Ice Task 6 – LU5

Please complete the answers to the given worksheet as relates to the content of LU5- Intercultural Communication and related Fields.

Submit your answers via this journal.

You can either answer on the actual word document provided or create your own document. Ensure that all the answers are completed in full and contain in text referencing.

The worksheet concerned for LU5 can be found when accessing the below link.

Please note that in text referencing is applicable for all questions, where the question structure allows for this logically.

Credit for this task will only be awarded if all of the abovementioned criteria are met.
