In order to understand how the "Harmony" movement came to be established the reader is advised to take my books in the following order : —

~~1. — "The Petticoat Co."~~

1. — "THE PETTICOAT COMMANDO"

The publication of this book caused the writer to be placed on the Imperial Black List. After causing a mild sensation in London in 1913 the book was suppressed and thereafter the author's movements closely watched. No communication from me are accepted in the British South African Papers. This has so much restricted the work of "Harmony" that every effort has been made during the last ten years to have my name removed from the Imperial Black List, but without success. My position was not improved when in 1915 I founded the Women's Nationalist Party, especially when it was realised that the funds collected by the untiring efforts of a band of well organised women enabled the men to set up a strong Nationalist Press. This eventually made it possible for the present Government to come into power.

a. - "THE MILLENNIUM"

This crude little book speaks for itself. It gives an account of a great, calm, blissful experience, when the writer (weighed in the Divine balance during the days of the Petticoat Commando and not found wanting) was initiated into the mysteries. It is the direct cause of the founding of the Order of Harmony and the Harmony School of Natural Healing.

Unfortunately it fanned the prejudices of the British section of the South African community into a fiercer flame. The writer became the target at which were aimed many cruel shafts. The public were warned against her as a Political Agent whose purpose was to lead the public of South Africa astray under the claim of Divine Inspiration and the gift of prophecy.

This brought about the literal fulfilment of the dire warning of coming desolation, forsakenness and persecution in the School of Suffering through which all who would serve must pass. (see page 101 of "The Millenium")

But two other afflictions came into my life which I had no idea would be included in that long list of misfortunes.

I developed a cancer of the stomach, and I lost the old home "Harmony". On page 227 of "The Fasting Book" in a few paragraphs I tell how the loss was brought about.

3. - "THE FASTING BOOK"

In an open letter to my readers on page 223 of this book I give my reasons for sending the book out unfinished and full of printer's errors. I was then in a dying condition in the final stage of cancer, with frequent haemorrhages.

The account of how I cured myself with natural treatment, fasting and prayer, has not yet been published.

4. - "PATRICIA"

Because of the continued persecution I published this novel under the name of Marcus Romondt. It flowed from my pen without thought or interruption and certain parts of it were written under high inspiration soon after my recovery from cancer. It was magnificently reviewed, the author being favourably compared with Milton and other famous ~~authors~~ writers, until her identity became known. After that, dead silence.

But "Patricia" will live. I created the pure and beautiful character with the express purpose of making her fall into sin that other girls may be saved. The book will someday be filmed and the beauties of the ancient Netherlands will form a gorgeous setting.

WHAT IS THE ORDER OF HARMONY?

The Order of Harmony is a Union of Reformers who aim, in the first place, at reforming themselves.

By applying the Principle of Harmony to every thought, word and deed of the daily life they strive to bring their own immediate environment to a state of perfection.

There is no other way of promoting Harmony on earth

Blind leaders of the blind have brought all the world to its present state of chaos. They have not realised that a diseased body is not a fit dwelling place for a pure spirit; that they cannot heal others until they have healed themselves; and that there will be no peace until the true balance between the sexes has been struck.

Under Divine Inspiration the Order teaches its Students how Harmony may be established by combining faith with reason, religion with science and natural healing with Divine Metaphysics.

It is only the beginning of the plague & pestilence that will cripple people's lungs with pain.

- Letter from Andrew Brow 17 Sept. 1901

" There are many common troubles, now-a-days, such as Influenza (it deserves a big capital I) which simply laugh at the strong and hardy. In fact, the stronger and hardier, the more scornful is the laugh. I know men who would never have known what it ~~is~~ was to spend a day in bed, had it not been for Influenza. "

" God only knows how much courage and suffering is buried in that manuscript. The second part was written in a circle of hell unknown to Dante — that of the penniless & dying author. "

↳ English media incited doubts & issues with JB & Dutch re: Millennium

↳ Quote on next page

says in letter that they were basically Dooms Day prepping by stocking up on meds & food → ready for it.

" During the scourge of Spanish Influenza people were very thoughtful, not to say anxious. In a few weeks we lost over 50 000 people. It would be quite impossible to give you an idea of the general confusion. Here at Harmony, we had eight cases, five of the children, two Natives and myself! But we all got over it beautifully. Of course I know that we had the simple Influenza, whereas those who fell down dead in the streets or succumbed after a few hours, turning black almost before death, had the real Pneumonic Plague. I lost three cousins and a future cousin, four magnificent specimens of manhood, within five days.

Well, you can imagine how I was besieged (and am still, for the matter of that) with letters and questions, "Is the Plague the fulfilment of the revelations of my book?" But of course it is not. It is not the storm described in the Fourth Vision. This I expect at any moment now and we are all fully prepared. ... I know full well that the Flu is only the beginning of the destructions that must precede the Second Advent.
