## 2. Observation Logs

### OBSERVATION LOG:

Record info:

Researcher name:	Mariette	Park:	Maurice square	Date & Day:	06/04/2024 Saturday
Arrival time:	10:10	Departure time:	13:07	Weather:	Partly cloudy

Bio-physical conditions:

Physical condition	Degraded, very poor condition <input checked="" type="checkbox"/>	Well-used, but fairly good condition	Newly upgraded / very good condition
Describe the park's physical features & style:	Litter from previous event		
Vegetation condition	Overgrown, wild, unmaintained vegetation	Maintenance evident, but perhaps not regular <input checked="" type="checkbox"/>	Clearly well-maintained
Describe the type of vegetation:	Fill of small litter Different types of grasses grown together A lot of areas with just ground.		
Level of maintenance	Poor, to non-existent <input checked="" type="checkbox"/>	Fair, maintenance evident, but not manicured <input checked="" type="checkbox"/>	Very well and regularly maintained
Describe the level of maintenance (evidence)	Grasses aren't that they long.		

Additional notes on biophysical conditions:

Board with dice.
More litter than last time.
Lot of empty bottles - codine
Minimal bins.

### Park elements and preferences:

Where are people gathering? (who?)	At house - extension of funeral. under <del>tables</del> trees - at tables
What are they doing? (who is doing what?)	Smoking, eating, socialising
How busy are the various parts of the park? (who is gathering where?)	Busy at end - funeral less busy at entrance.
What park elements (physical attributes) are most busy, attractive, well used?	Benches Parking lots - for cars.
What park elements (physical attributes) are most degraded or damaged?	Not used - chess area. (no piones)
Where do you see adaptations to the parks, and what are they?	Artworks, graffiti Pop-up tents for events.
What particular social / economic / cultural relationships or endeavours are facilitated in the park?	Relaxing - sitting under shade.
What particular HNRs do you notice in the park?	Funeral

### Unusual or noteworthy aspects in terms of park conditions, design, aesthetics or use patterns:

<p><del>Per</del> Fences to demarcate space - <sup>4</sup> people</p>

REFLECTION:

Skateboarder going past

Taxi rank - point of changing from one route to another

Not mad about ubers - everyone needs jobs.

Park elements and preferences:

Where are people gathering? (who?)	usually tables + benches
What are they doing? (who is doing what?)	eating smoking
How busy are the various parts of the park? (who is gathering where?)	fairly distributed
What park elements (physical attributes) are most busy, attractive, well used?	Parking and benches + tables
What park elements (physical attributes) are most degraded or damaged?	street furniture and walls
Where do you see adaptations to the parks, and what are they?	graffiti on paving and tables
What particular social / economic / cultural relationships or endeavours are facilitated in the park?	groups gathering / children gathering older people sitting alone
What particular HNRs do you notice in the park?	None

Unusual or noteworthy aspects in terms of park conditions, design, aesthetics or use patterns:

In general a very active park and surrounding  
just a lot of litter and weeds  
Spaces (tables) do get appropriated for  
games / gambling  
Teenage drunk a problem

13/10/20  
lucky

# OBSERVATION LOG:

Record info:

Researcher name:	SIPH1W3	Park:	MAUNDE PARK	Date & Day:	06.04.2024
Arrival time:	10h10	Departure time:	12h07	Weather:	Partly Cloudy

## Bio-physical conditions:

Physical condition	Degraded, very poor condition	Well-used, but fairly good condition	Newly upgraded / very good condition
Describe the park's physical features & style:	TREES, PAVING + BENCHES (ONLY) PAV. PARKING. PAVEL BENTUNG STOP EXTENDS TO PARK		
Vegetation condition	Overgrown, wild, unmaintained vegetation	Maintenance evident, but perhaps not regular	Clearly well-maintained
Describe the type of vegetation:	TREES, NO SHRUBS LAWN		
Level of maintenance	Poor, to non-existent	Fair, maintenance evident, but not manicured	Very well and regularly maintained
Describe the level of maintenance (evidence)	OVERGROWN WEEDS, OVER FLOWING RINS		

Additional notes on biophysical conditions:

### Park elements and preferences:

Where are people gathering? (who?)	YES THERE WAS A FUNERAL AND PEOPLE WERE USING THE PARK FOR EATING.
What are they doing? (who is doing what?)	EATING, DRINKING AND PLAY.
How busy are the various parts of the park? (who is gathering where?)	WEST SIDE OF THE PARK WAS BUSY BECAUSE OF A FUNERAL
What park elements (physical attributes) are most busy, attractive, well used?	TABLES AND CHAIRS UNDER TREES MOST USED
What park elements (physical attributes) are <u>most degraded</u> or damaged?	LAWN, BINS
Where do you see adaptations to the parks, and what are they?	BENCHES USED AS SEAT AND TABLES, CHAIRS PAINTED USED TO PLAY SOCCER
What particular <u>social</u> / economic / cultural relationships or endeavours are facilitated in the park?	FUNERAL, FUNCTIONS, STREET CACHER
What particular HNRs do you notice in the park?	WONE

### Unusual or noteworthy aspects in terms of park conditions, design, aesthetics or use patterns:

Atmosphere / level of activity:

Atmosphere: (Describe the atmosphere, provide evidence)	Eg. peaceful, noisy, music etc. <b>Music at funeral (live)</b> <b>People talking</b> <b>kids screaming</b> <b>People washing cars.</b>			
Level of activity in park:	Almost deserted	Quiet, but people evident	Active <b>X</b>	Busy to very busy
Surrounding context:	Almost deserted	Quiet, but people evident <b>X</b>	Active <b>X</b>	Busy to very busy

People of funeral

Additional notes on atmosphere and activity levels (note changes over time):

Funeral made it very busy - will stay most of the day.

Socio-cultural observations:

Observations about gender:	Female + male @ funeral More men in rest of park
Observations about socio-economics:	People washing variety of cars. Dressed neatly for funeral.
Observations about age:	Younger people, School, Students Elders (few) - but at funeral
Cultural observations (eg. religious activities, cultural activities, stokvel etc):	Funeral

Comments:

--

## OBSERVATION LOG:

Record info:

Researcher name:	MARTHINJULI	Park:	M-S.	Date & Day:	6/4/2024
Arrival time:	10:10	Departure time:	13:10	Weather:	OVERCAST

## Bio-physical conditions:

Physical condition	Degraded, very poor condition	Well-used, but fairly good condition	Newly upgraded / very good condition
Describe the park's physical features & style:	lot of litter Used as parking		
Vegetation condition	Overgrown, wild, unmaintained vegetation	Maintenance evident, but perhaps not regular	Clearly well-maintained
Describe the type of vegetation:	established trees		
Level of maintenance	Poor, to non-existent	Fair, maintenance evident, but not manicured	Very well and regularly maintained
Describe the level of maintenance (evidence)	litter weeds broken walls/benches		

Additional notes on biophysical conditions:

People enjoy shade

Atmosphere / level of activity:

Atmosphere: (Describe the atmosphere, provide evidence)	Eg. peaceful, noisy, music etc. <b>Noisy traffic</b>			
Level of activity in park	Almost deserted	Quiet, but people evident	<b>Active</b>	Busy to very busy
Surrounding context:	Almost deserted	Quiet, but people evident	Active	<b>Busy to very busy</b>

Additional notes on atmosphere and activity levels (note changes over time).

<b>Funeral - park</b>	<b>Very busy</b>
<b>after tears</b>	
<b>A lot of drinking</b>	
<b>Washing of cars in parking</b>	

Socio-cultural observations:

Observations about gender:	<b>mixed</b>
Observations about socio-economics:	<b>locals</b>
Observations about age:	<b>mixed - young to elderly</b>
Cultural observations (eg. religious activities, cultural activities, stoke etc)	<b>eating / washing / smoking</b>

Comments:

**lot of pedestrians, people walking along sidewalks**  
**Residents at houses came out and socialise on sidewalks and gates**

Atmosphere / level of activity:

Atmosphere: (Describe the atmosphere, provide evidence)	Eg. peaceful, noisy, music etc. CAR TRAFFIC NOISE, TAXIS HOOTING, BAND SINGING AT A NEARBY FUNERAL			
Level of activity in park:	Almost deserted	Quiet, but people evident	Active X	Busy to very busy
Surrounding context:	Almost deserted	Quiet, but people evident	Active X	Busy to very busy

Additional notes on atmosphere and activity levels (note changes over time):

CARWASH (A PERSON WASHING THEIR CAR AND USING BOARDS TO DRY THEIR MATS)
SECTION OPPOSITE THE PARK IS A TRANSPORT INTERCHANGE, PEOPLE GET OF CARS AND TAKE CONNECTING CARS TO THEIR DESTINATIONS

Socio-cultural observations:

Observations about gender:	MOSTLY MALES BUT WOMEN WERE THERE TOO
Observations about socio-economics:	NONE
Observations about age:	MIXED AUDIENCE
Cultural observations (eg. religious activities, cultural activities, stokvel etc):	<del>NO</del> NONE

Comments:

MOST PEOPLE WERE CHILLING, CAR WASH
-------------------------------------

REFLECTION

ACTIVITY. A LOT OF COUGH MIXTURE  
BOTTLE, THE LAWN DIDN'T LOOK TOO GOOD

## OBSERVATION LOG:

Record info:

Researcher name:	M.L.	Park:	M.D.	Date & Day:	5 APR
Arrival time:	12:20	Departure time:	15:20	Weather:	OVERCAST/RAINY

Bio-physical conditions:

Physical condition	Degraded, very poor condition	Well-used, but fairly good condition	Newly upgraded / very good condition
Describe the park's physical features & style:	MIX BETWEEN MANICURED + 'WILD' CUT LAWN / BIG ESTABLISHED TREES - WILLOW BENCHES USED / ALONG WALKERSPRUIT RESTAURANT GOOD + USED		
Vegetation condition	Overgrown, wild, unmaintained vegetation	Maintenance evident, but perhaps not regular	Clearly well-maintained
Describe the type of vegetation:	VARIETY OF VEGETATION		
Level of maintenance	Poor, to non-existent	Fair, maintenance evident, but not manicured	Very well and regularly maintained
Describe the level of maintenance (evidence)	GRASS WERE CUT VERY RECENTLY BUT ONLY AROUND RESTAURANT		

Additional notes on biophysical conditions:

I LIKE THE MORE NATURAL 'WILD' (EAST)
VEGETATION SCREENING ROAD + TRAFFIC
SOUND OF WIND THROUGH TREE LEAVES ARE CALMING
LONG-UNCUT GRASS FEELS/LOOK MESSY

Atmosphere / level of activity:

Atmosphere: (Describe the atmosphere, provide evidence):	Eg. peaceful, noisy, music etc. <b>PEACEFUL, LIGHT TRAFFIC NOISE</b>			
Level of activity in park:	Almost deserted	Quiet, but people evident <input checked="" type="checkbox"/>	Active	Busy to very busy
Surrounding context:	Almost deserted	Quiet, but people evident <input checked="" type="checkbox"/>	Active	Busy to very busy

Additional notes on atmosphere and activity levels (note changes over time):

-PICNIC NEAR RAIL AREA, COUPLE OF PEOPLE
SITTING ALONG THE STREAM (ON BENCHES)
PEOPLE SITTING UNDER THE TREE
ACTIVITY AT THE COFFEE SHOP

Socio-cultural observations:

Observations about gender:	<b>FAR</b>
Observations about socio-economics:	<b>MOSTLY YOUNG ADULTS</b>
Observations about age:	<b>MOSTLY YOUNG ADULTS</b>
Cultural observations (eg. religious activities, cultural activities, stokvel etc):	<b>NO RELIGIOUS OR CULTURAL ACTIVITIES</b>

Comments:

--

# Park elements and preferences:

Where are people gathering? (who?)	UNDER TREES, LAWN, BENCHES AND COFFEE SHOP, MIXED AUDIENCE BUT MAINLY YOUNG PEOPLE
What are they doing? (who is doing what?)	HAVING A PICNIC, STRETCHING AND TALKING.
How busy are the various parts of the park? (who is gathering where?)	PLAY AREA FOR KIDS IS MORE ACTIVE.
What park elements (physical attributes) are most busy, attractive, well used?	LAWN + BENCHES
What park elements (physical attributes) are most degraded or damaged?	TOILETS, SERVICE MANHOLE AND OTHER SERVICES.
Where do you see adaptations to the parks, and what are they?	OLD WATERPOND HAS BEEN ADAPTED TO A SLATE PARK.
What particular social / economic / cultural relationships or endeavours are facilitated in the park?	NONE
What particular HNRs do you notice in the park?	TREES BECOME A PLACE TO STAY

## Unusual or noteworthy aspects in terms of park conditions, design, aesthetics or use patterns:

EDUCATIONAL COPINGS WITH ANIMALS, WRITTEN IN INDIGENOUS LANGUAGE.

## OBSERVATION LOG:

Record info:

Researcher name:	" Mariette	Park:	Magnolia dell	Date & Day:	05-04-2024 Friday
Arrival time:	12:15	Departure time:	15:23	Weather:	Overcast

Later - more open

Bio-physical conditions:

Physical condition	Degraded, very poor condition	Well-used, but fairly good condition X	Newly upgraded / very good condition
Describe the park's physical features & style:	Benches are in good conditions, being used. Play area in good condition, used Filled bins		
Vegetation condition	Overgrown, wild, unmaintained vegetation	Maintenance evident, but perhaps not regular X	Clearly well-maintained
Describe the type of vegetation:	New mower bought by owners Areas still need mowing Forest on one side, beddings on the other		
Level of maintenance	Poor, to non-existent	Fair, maintenance evident, but not manicured	Very well and regularly maintained
Describe the level of maintenance (evidence)	Well maintained grass in half of the area Well looked after bedding		

Additional notes on biophysical conditions:

### Atmosphere / level of activity:

Atmosphere: (Describe the atmosphere, provide evidence)	Eg. peaceful, noisy, music etc. Peaceful stream, and wind blowing through Willow trees many cars pass music from individuals			
Level of activity in park:	Almost deserted	Quiet, but people evident	Active X	Busy to very busy
Surrounding context:	Almost deserted	Quiet, but people evident	Active X - cars	Busy to very busy

### Additional notes on atmosphere and activity levels (note changes over time):

Quieter at first, but better when it became less cloudy.

### Socio-cultural observations:

Observations about gender:	
Observations about socio-economics:	People on lunch breaks
Observations about age:	Young working But also kids in play area
Cultural observations (eg. religious activities, cultural activities, stakvel etc):	

### Comments:

Observations on behaviour: relaxing, sitting on benches Picnic
---

### Park elements and preferences

Where are people gathering? (who?)	At benches; under big trees Near restaurant At playarea.
What are they doing? (who is doing what?)	Lunch break Listen to music, picnic Lie on benches
How busy are the various parts of the park? (who is gathering where?)	Very busy at playground + restaurant
What park elements (physical attributes) are most busy, attractive, well used?	Benches Playground
What park elements (physical attributes) are most degraded or damaged?	Bathroom facilities
Where do you see adaptations to the parks, and what are they?	Love bridge, animals on concrete blocks
What particular social / economic / cultural relationships or endeavours are facilitated in the park?	Picnic Restaurant
What particular HNRs do you notice in the park?	

Unusual or noteworthy aspects in terms of park conditions, design, aesthetics or use patterns:

Areas with broken glass
Small pieces of litter
Dead roth

Atmosphere / level of activity:

Atmosphere: (Describe the atmosphere, provide evidence)	Eg. peaceful, noisy, music etc. <b>PEACEFUL</b> <b>LOTS OF TRAFFIC NOISE - LOUD</b> <b>BUT CLOSER TO STREAM IS NICE</b>			
Level of activity in park:	Almost deserted	Quiet, but people evident	Active	Busy to very busy
Surrounding context:	Almost deserted	Quiet, but people evident	Active	Busy to very busy

Additional notes on atmosphere and activity levels (note changes over time):

<b>PEOPLE USE BENCHES REGULARLY</b>
<b>PEOPLE PICNIC</b>
<b>CHILDREN USE PLAY EQUIPMENT</b>

Socio-cultural observations:

Observations about gender:	<b>MORE MEN</b>
Observations about socio-economics:	<b>MIX</b>
Observations about age:	<b>ADULTS</b>
Cultural observations (eg. religious activities, cultural activities, stokvel etc):	<b>NONE</b> <b>PEOPLE JUST SIT</b> <b>AND RELAX</b>

Comments:

--

Park elements and preferences:

Where are people gathering? (who?)	BENCHES ARE BEING USED
What are they doing? (who is doing what?)	SITTING
How busy are the various parts of the park? (who is gathering where?)	RESTAURANT AREA BUSY BENCHES WERE USED / FULL BEFORE 1 PM
What park elements (physical attributes) are most busy, attractive, well used?	BENCHES / PLAY / RESTAURANT
What park elements (physical attributes) are most degraded or damaged?	LID OF SERVICE MANHOLE IS GONE PUBLIC TOILETS FENCES AROUND PARK
Where do you see adaptations to the parks, and what are they?	DESIRE LINES
What particular social / economic / cultural relationships or endeavours are facilitated in the park?	NONE
What particular HNRs do you notice in the park?	PEOPLE RELAX IN SHADE

Unusual or noteworthy aspects in terms of park conditions, design, aesthetics or use patterns:

REGULAR PARK USER MENTIONED THAT
SKATEBOARDER (NORTH) ARE NOT
BOTHERED BY HOMELESS / VAGRANTS
IN PARK

## OBSERVATION LOG:

Record info:

Researcher name:	SAPHNE	Park:	MAGNOLIA DELL	Date & Day:	05-04-2024
Arrival time:	12h15	Departure time:	15:20	Weather:	cloudy / overcast & very light rains

Bio-physical conditions:

Physical condition	Degraded, very poor condition	Well-used, but fairly good condition ✓	Newly upgraded / very good condition
Describe the park's physical features & style:	TREES ON EITHER SIDE, LAWN IN THE MIDDLE. - WALKER SPRUIT. STREAM CUTS THE MIDDLE OF THE PARK - RESTAURANT (HULLS BEER) - USED - ABUTION FACILITIES - NOT USED - BENCHES, LOVE SEAT AND CONC PAVEL INFO GRAPHIC FOR KIDS WRITTEN IN ALL 11 LANGUAGES + SHONA.		
Vegetation condition	Overgrown, wild, unmaintained vegetation	Maintenance evident, but perhaps not regular ✓	Clearly well-maintained
Describe the type of vegetation:	- PLANTING IS WELL MAINTAINED - LAWN IS WELL MAINTAINED		
Level of maintenance	Poor, to non-existent	Fair, maintenance evident, but not manicured ✓	Very well and regularly maintained
Describe the level of maintenance (evidence)	ABUTION FACILITIES HAVE BEEN CLOSED FOR MORE THAN 10 YEARS (NELINE, WORKING AT THE RESTAURANT)		

Additional notes on biophysical conditions:

- NORTHERN PART OF THE GARDEN USE IS NATURAL
SOUTH PORTION IS MAN MADE
- STREAMS + WILLOW TREES IN THE MIDDLE

## REFLECTION

Managers of Huckleberry's Chris

Involved - Neline & son Dylan

Lack of maintenance of CoT

- Broken bathrooms - 10+ yrs - broken out for copper pipes - kept locked
- Innovations of animal + language blocks + love bridge
- Skate park - good edition
- Bedding planted by extras from community + visitors of restaurant

## OBSERVATION LOG:

Record info:

Researcher name:	MARTINUS	Park:	B.P.	Date & Day:	WEDNESDAY 10 APRIL
Arrival time:	11:30	Departure time:	14:00	Weather:	SUNNY

## Bio-physical conditions:

Physical condition	Degraded, very poor condition	Well-used, but fairly good condition	Newly upgraded / very good condition
Describe the park's physical features & style:	lush lawn lots of shade		
Vegetation condition	Overgrown, wild, unmaintained vegetation	Maintenance evident, but perhaps not regular	Clearly well-maintained
Describe the type of vegetation:			
Level of maintenance	Poor, to non-existent	Fair, maintenance evident, but not manicured	Very well and regularly maintained
Describe the level of maintenance (evidence)			

## Additional notes on biophysical conditions:

Buildings	
walls	vandalised
fences	broken

Atmosphere / level of activity:

Atmosphere: (Describe the atmosphere, provide evidence)	Eg. peaceful, noisy, music etc. <i>Fairly calm</i> <i>Noisy traffic</i>			
Level of activity in park:	Almost deserted	Quiet, but people evident	Active	<del>Busy to very busy</del>
Surrounding context:	Almost deserted	Quiet, but people evident	Active	<del>Busy to very busy</del>

Additional notes on atmosphere and activity levels (note changes over time):

<i>lots of people walking through</i>
<i>sitting on benches</i>
<i>drinking under trees</i>

Socio-cultural observations:

Observations about gender:	<i>mixed / more men</i>
Observations about socio-economics:	<i>locals</i>
Observations about age:	<i>students</i>
Cultural observations (eg. religious activities, cultural activities, stokvel etc).	<i>None</i>

Comments:

--

Atmosphere / level of activity:

Atmosphere: (Describe the atmosphere, provide evidence)	Eg. peaceful, noisy, music etc. PEACEFUL TOWARDS THE CENTRE AND TOISY TOWARDS BUSY STREETS			
Level of activity in park:	Almost deserted	Quiet, but people evident	Active X	Busy to very busy
Surrounding context:	Almost deserted	Quiet, but people evident	Active X	Busy to very busy

Additional notes on atmosphere and activity levels (note changes over time):

PEOPLE LAMING UNDER TREES, SITTING AND HAVING CONVERSATIONS ON BENCHES, WALKING THROUGH THE PARK.

Socio-cultural observations:

Observations about gender:	Mixed
Observations about socio-economics:	NONE
Observations about age:	Mixed Groups BUT MOSTLY Young Adults
Cultural observations (eg, religious activities, cultural activities, stokvel etc).	NONE

Comments:

--

Park elements and preferences:

Where are people gathering? (who?)	A GROUP OF PEOPLE AROUND THE STAGE
What are they doing? (who is doing what?)	LOOKS LIKE THEY ARE HAVING A MEETING
How busy are the various parts of the park? (who is gathering where?)	DIFFERENT PEOPLE FROM COUPLES SITTING AND ENJOYING THE TRACK, BIRD FEEDING
What park elements (physical attributes) are most busy, attractive, well used?	LAWN BENCHES, STAGE
What park elements (physical attributes) are most degraded or damaged?	BATHROOMS, GREEN HOUSE, BENCH
Where do you see adaptations to the parks, and what are they?	
What particular social / economic / cultural relationships or endeavours are facilitated in the park?	
What particular HNRs do you notice in the park?	

Unusual or noteworthy aspects in terms of park conditions, design, aesthetics or use patterns:

## OBSERVATION LOG:

Record info:

10 / 04 / 2024  
WEDNESDAY

Researcher name:	Mariette	Park:	Burgers Park	Date & Day:	<del>10/04/2024</del> Thursday
Arrival time:	11:25	Departure time:	14:00	Weather:	Sunny, no clouds

## Bio-physical conditions:

Physical condition	Degraded, very poor condition	Well-used, but fairly good condition X	Newly upgraded / very good condition
Describe the park's physical features & style:	Some areas are better maintained than other <del>some</del> benches are in good condition But at places things are degraded (broken bins)		
Vegetation condition	Overgrown, wild, unmaintained vegetation	Maintenance evident, but perhaps not regular X	Clearly well-maintained
Describe the type of vegetation:	Grass isn't that tall, but some vegetation is unkempt. Fallen tree trunks Very neat around <del>part</del> statue (soldier) <del>Some bedding unmaintained</del>		
Level of maintenance	Poor, to non-existent	Fair, maintenance evident, but not manicured X	Very well and regularly maintained
Describe the level of maintenance (evidence)	Irregular maintenance. but mostly not in too bad condition. Areas differ. Lots of places with litter - people leave their food containers where they sat for their lunch breaks.		

Additional notes on biophysical conditions:

Park elements and preferences:

Where are people gathering? (who?)	Lots of people at the bandstand
What are they doing? (who is doing what?)	People sleeping, sitting on benches Some people were drinking. Taking photos
How busy are the various parts of the park? (who is gathering where?)	
What park elements (physical attributes) are most busy, attractive, well used?	Park benches. Lawns.
What park elements (physical attributes) are most degraded or damaged?	Some bins are broken - falls Get through Locked kiosk
Where do you see adaptations to the parks, and what are they?	possible - rock from wall used <del>for</del> as a goal post in a soccer match.
What particular social / economic / cultural relationships or endeavours are facilitated in the park?	Plenty of vendors at the entrances (mostly outside)
What particular HNRs do you notice in the park?	Relaxing mostly - enjoying the shade.

Unusual or noteworthy aspects in terms of park conditions, design, aesthetics or use patterns:

## OBSERVATION LOG:

## Record info:

Researcher name:	SIPHIWE	Park:	BURGERS PARK	Date & Day:	11-04-24
Arrival time:	11h 50	Departure time:		Weather:	PARTLY CLOUDY

## Bio-physical conditions:

Physical condition	Degraded, very poor condition	Well-used, but fairly good condition	Newly upgraded / very good condition
Describe the park's physical features & style:	THERE ARE A COUPLE OF VICTORIAN FEATURES, STAGE, BUILDING AT THE CENTRE GREEN HOUSE		
Vegetation condition	Overgrown, wild, unmaintained vegetation	Maintenance evident, but perhaps not regular	Clearly well-maintained
Describe the type of vegetation:	LAWN, TREES, SHRUBS AND MORE TREES ON THE EDGES OF THE PARK		
Level of maintenance	Poor, to non-existent	Fair, maintenance evident, but not manicured	Very well and regularly maintained
Describe the level of maintenance (evidence)	WEED ON YAVING, OVER GROWN SHRUBS, LAWN CUT.		

## Additional notes on biophysical conditions:

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

#### Atmosphere / level of activity:

Atmosphere: (Describe the atmosphere, provide evidence)	Eg. peaceful, noisy, music etc. Busy, people were walking around the entire time - other were lounging. When parcels were handed out plenty of people.			
Level of activity in park:	Almost deserted	Quiet, but people evident	Active	Busy to very busy X →
Surrounding context:	Almost deserted	Quiet, but people evident X	Active	Busy to very busy

especially vendors + buyers. plenty of cars.

Additional notes on atmosphere and activity levels (note changes over time):

Plenty of cars on southern street
We spent a lot of time in this area

#### Socio-cultural observations:

Observations about gender:	Mix - maybe mostly men.
Observations about socio-economics:	plenty of CoT workers. some people dressed up.
Observations about age:	mostly adults - not many students/kids. <del>to</del>
Cultural observations (eg. religious activities, cultural activities, stokvel etc):	/

#### Comments:

Visit over lunch break time - lots of people who work.
--

Park elements and preferences:

Where are people gathering? (who?)	LAWN, STAGE AT BENCHES
What are they doing? (who is doing what?)	EATING, CHATING, CLEANING
How busy are the various parts of the park? (who is gathering where?)	INDIVIDUALS, COUPLES AND GROUPS DOING DIFFERENT THINGS
What park elements (physical attributes) are most busy, attractive, well used?	STAGE, LAWN
What park elements (physical attributes) are most degraded or damaged?	PLANTS, BUILDINGS
Where do you see adaptations to the parks, and what are they?	LAWN, SOCCER PILES CREATED FROM PAVING OR BOULDERS.
What particular social / economic / cultural relationships or endeavours are facilitated in the park?	WEDDINGS, FOTO PHOTOSHOOTS FEEDING SCHEMES.
What particular HNRs do you notice in the park?	USE OF TREE SHADE FOR GATHERING.

Unusual or noteworthy aspects in terms of park conditions, design, aesthetics or use patterns:

FENCE BROKEN, DESIRE LINES CUTTING ACROSS ACROSS LAWNS, ADAPTATIONS

Park elements and preferences:

Where are people gathering? (who?)	Sat on "fencing" near playground. People gathered at bandstand for food parcels. around statues, on benches.
What are they doing? (who is doing what?)	Sleeping on eastern side & Northern. Eating, sharing meals homeless getting food
How busy are the various parts of the park? (who is gathering where?)	Busy but quiet
What park elements (physical attributes) are most busy, attractive, well used?	Park benches Bandstand, lawns.
What park elements (physical attributes) are most degraded or damaged?	Kiosk disregarded
Where do you see adaptations to the parks, and what are they?	Bricks on eastern side might be goal post
What particular social / economic / cultural relationships or endeavours are facilitated in the park?	Sleeping on grass bums Enjoying the shade.
What particular HNRs do you notice in the park?	Selling forgers find food, trying to find food, food parcels.

Fire made near

Unusual or noteworthy aspects in terms of park conditions, design, aesthetics or use patterns:

~~More~~  
Less  
people  
out  
  
Maybe  
with

REFLECTION:

Lots of homeless people sleeping - alone

Security people sleeping in groups  
possible shift workers

In general park feels safe and calm  
and that people do use park regularly

Food parcels are being dropped  
off at old band-stand 18:57

REFLECTION:

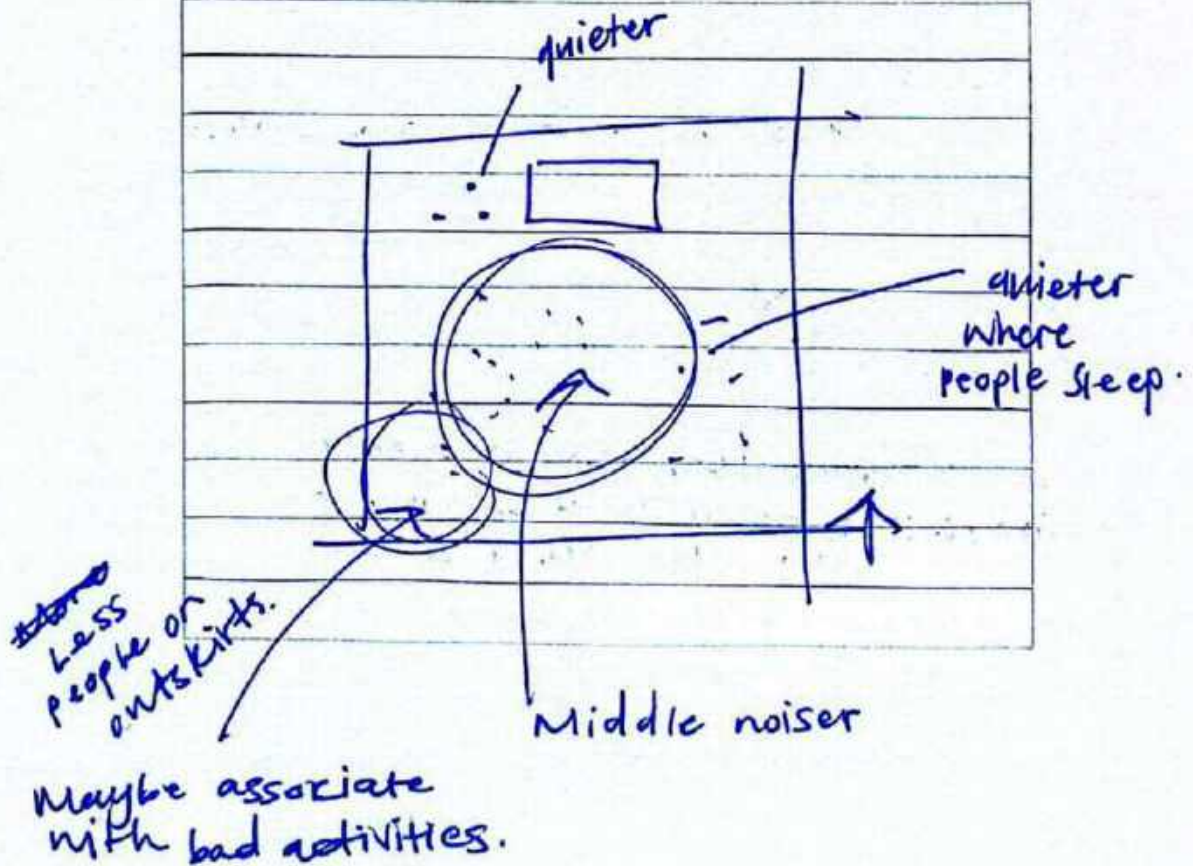

r playground.  
and stand  
nehes.  
ide

Fire made  
near

Plenty of doves, haededas, ducks.  
People with bags of food containers  
(Homeless)

People fighting - conflict between  
homeless.

one guy was talking to himself  
& passerbys

#### REFLECTION:

Jubilee square - on the way to the park

- also used by many people

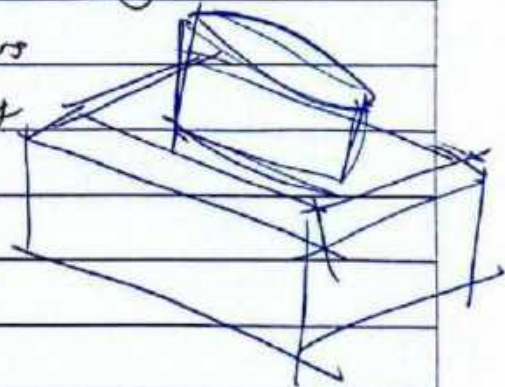

- Gym equipment - but people sleep there.

vendors: sweets, chips.

Possible adaptation - rock - possible goal post.

Security warden walked past.

One lady mentioned people leaving  
their lunch / food containers  
instead of throwing it away  
but then she did the  
same.

## OBSERVATION LOG:

Record info:

Researcher name:	Mariette	Park:	Burgers Park	Date & Day:	11/04/20 Thursday
Arrival time:	11:50	Departure time:	13:33	Weather:	Partly Cloudy

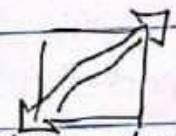

Bio-physical conditions:

Physical condition	Degraded, very poor condition	Well-used, but fairly good condition X	Newly upgraded / very good condition
Describe the park's physical features & style:	Victorian - bollards, structures - bandstand, benches, light fixture.		
Vegetation condition	Overgrown, wild, unmaintained vegetation	Maintenance evident, but perhaps not regular X	Clearly well-maintained
Describe the type of vegetation:	Lots of different conditions, short but some very patchy palm trees, big trees.		
Level of maintenance	Poor, to non-existent	Fair, maintenance evident, but not manicured X	Very well and regularly maintained
Describe the level of maintenance (evidence)	Not too untidy, but maybe not regular maintenance - people contribute a lot of litter.		

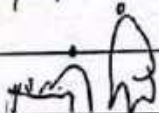

Additional notes on biophysical conditions:

After people eat they would just throw their papers on the ground.
"Someone will pick it up"

Park elements and preferences:

Where are people gathering? (who?)	lawn + shade benches
What are they doing? (who is doing what?)	chilling
How busy are the various parts of the park? (who is gathering where?)	fairly distributed
What park elements (physical attributes) are most busy, attractive, well used?	trees + lawn
What park elements (physical attributes) are most degraded or damaged?	fences, buildings, walls
Where do you see adaptations to the parks, and what are they?	desire lines 
What particular social / economic / cultural relationships or endeavours are facilitated in the park?	many people sitting alone
What particular HNRs do you notice in the park?	None

Unusual or noteworthy aspects in terms of park conditions, design, aesthetics or use patterns:

People selling refreshments walking in park
 informal stalls on sidewalk

## OBSERVATION LOG:

Record info:

10/04/2024  
WEDNESDAY

Researcher name:	SIMONE	Park:	BURGERS	Date & Day:	<del>29/04/24</del> Thursday
Arrival time:	11:27	Departure time:	14:00	Weather:	Clear SK

## Bio-physical conditions:

Physical condition	Degraded, very poor condition	Well-used, but fairly good condition	Newly upgraded / very good condition
Describe the park's physical features & style:	X Burgers mostly Victorian style, stage, green house empty water pond trees, pathways, lawn.		
Vegetation condition	Overgrown, wild, unmaintained vegetation	Maintenance evident, but perhaps not regular X	Clearly well-maintained
Describe the type of vegetation:	Some areas are overgrown and some are maintained		
Level of maintenance	Poor, to non-existent	Fair, maintenance evident, but not manicured X	Very well and regularly maintained
Describe the level of maintenance (evidence)	Lawn is cut/maintained		

Additional notes on biophysical conditions:

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

Atmosphere / level of activity:

Atmosphere: (Describe the atmosphere, provide evidence)	Eg. peaceful, noisy, music etc. DEPENDING WHERE YOU ARE SOME SPACES IN THE PARK ARE MORE PEACEFUL			
Level of activity in park:	Almost deserted	Quiet, but people evident	Active X	Busy to very busy
Surrounding context:	Almost deserted	Quiet, but people evident	Active	Busy to very busy

Additional notes on atmosphere and activity levels (note changes over time):

PEOPLE SITTING, EATING, LAYING ON THE LAWN UNDER TREES, WALKING THROUGH THE PARK, THERE IS A FEEDING SCHEME ON THE AMPHITHEATRE, PICKNICS

Socio-cultural observations:

Observations about gender:	MIXED
Observations about socio-economics:	NONE
Observations about age:	MOSTLY YOUNG ADULTS
Cultural observations (eg. religious activities, cultural activities, stokvel etc):	NONE

Comments:

Atmosphere / level of activity:

Atmosphere: (Describe the atmosphere, provide evidence)	Eg. peaceful, noisy, music etc. Lots of people gathering. Small groups of three, individuals bigger groups. People eating.			
Level of activity in park:	Almost deserted	Quiet, but people evident	Active	Busy to very busy X
Surrounding context:	Almost deserted	Quiet, but people evident	Active X	Busy to very busy

Additional notes on atmosphere and activity levels (note changes over time):

Noisier the longer we sat

Socio-cultural observations:

Observations about gender:	Mixture of gender	Lot of homeless people. Office clothes
Observations about socio-economics:	People on lunch breaks, -	
Observations about age:	not many children. - Young adults Older people (few)	
Cultural observations (eg. religious activities, cultural activities, stokvel etc).	Meditate as someone sat on park bench.
